

A dark-colored Lamborghini Huracán Sterrato is shown from a side profile, parked on a rough, gravelly surface. The car's design features a rugged, off-road aesthetic with large wheels and a high ground clearance. The background is a dark, textured wall. The title text is overlaid on the car's body.

BEYOND THE CONCRETE.

**The most adventurous Huracán.
The Sterrato was created to obliterate
the limits and bring Lamborghini drivers
into a new dimension of Fun-to-Drive,
where every road is an experience, no
matter the condition.**

With precise, sharp lines and dedicated
Driving Modes, Huracán Sterrato is a new,
innovative embodiment of Lamborghini's
daring spirit, destined to be driven by equally
bold, intrepid individuals.

FUEL CONSUMPTION AND EMISSION VALUES OF HURACÁN STERRATO: FUEL CONSUMPTION COMBINED IN L/100KM: 14,9 (WLTP), 14,6 (NEDC), FUEL ECONOMY COMBINED 15 MPG (EPA); CO2-EMISSIONS IN G/KM: 337(WLTP), 333(NEDC)

BRAND VALUES

THE LAMBORGHINI DNA.

Huracán Sterrato and its limitless approach result from a design process geared toward the final goal of always expressing Lamborghini's brand values to the fullest.

The Sterrato is brave, never backing down from a challenge and even looking for one. Its relentless pushing of the limits fulfills Lamborghini's ongoing mission of bringing past, present, and future together in new, unexpected ways.

Huracán Sterrato represents Lamborghini's authentic, pioneering spirit—always forward, forging its own path.

01

DESIGN

EXTERIOR

A CAPTIVATING DESIGN.

The lines of Huracán Sterrato are mesmerizing. Every single detail of this super car's exterior has been engineered to achieve a higher level of Fun-to-Drive experience.

New protection and safety elements have been introduced, such as additional front lights for extra illumination source, protective grilles, an underbody aluminum protection, wheel arches for additional protection from dust and dirt, a side lower skid and front and rear mudguards to reduce stone chipping, and a redesigned rear diffuser to reduce dust accumulation. All these additions contribute to making Huracán Sterrato the perfect vehicle to explore new roads no matter the terrain.

EXTERIOR PAINT OPTIONS AND AD PERSONAM

EXPRESS YOURSELF.

Huracán Sterrato can be made even more extraordinary with a nearly endless choice of exterior color configurations provided by the offers Standard (8 color choices), Option (9 color choices), and Ad Personam (more than 300 color choices).

The Ad Personam program, in particular, stands as a favored option among Lamborghini enthusiasts who rely on Lamborghini experts to bring their vision to life. Through this exclusive program, individuals have the opportunity to craft unique liveries that fully and authentically represent the driver's distinctive personality.

RIMS

A VAST RIM SELECTION.

Rim personalization is an additional way of adding a unique touch to Huracán Sterrato.

In the Standard offer, the Cerere 19" rims are available in Shiny Silver.

The Option offer for the Cerere 19" is a Matt Titanium configuration, while the Morus 19" is available in Shiny Black with Accent Colors, Matt Black, and Matt Bronze.

The Ad Personam program also offers a White configuration for the Morus 19".

BRAKE CALIPERS

PERSONALIZE EVERY DETAIL.

The Huracán Sterrato features carbon-ceramic brakes, providing exceptional braking performance that ranks among the finest in its segment.

While the Standard offer for brake calipers is Silver, further personalization choices are available in Option (Black, Yellow, Green, Red, and Orange) and Ad Personam (Blue and Verde Scandal).

INTERIOR

FEEL LIKE A PILOT.

The interior of Huracán Sterrato is geared toward adventure and reflects the “Feel Like a Pilot” philosophy already adopted by the rest of the Huracán family.

All elements, from carbon bi-shell sports seats to the aluminum floor mats, are lightweight and offer an open invitation to the driver into a space created for exploration and adventure. Refined details such as the distinctive Verde Sterrato contrast color, the embroidered Sterrato logo, and the laser-engraved Alcantara trims contribute to adding a precious touch of Lamborghini sophistication to the entire ensemble, elevating it to an iconic status.

02

PERFORMANCE

ENGINE

AN ICONIC POWERTRAIN.

The beating heart of Huracán Sterrato is the iconic 5.2-liter V10 engine. This extraordinary powertrain is equipped with a 4WD transmission and provides a maximum output of 610 CV, guaranteeing the performance of a super sports car on any surface. Optimized throttle response improves responsiveness for a Fun-to-Drive experience on any kind of terrain, capable of delivering pure emotions on dirty and dusty roads.

AERODYNAMICS

POWERFUL AERODYNAMICS.

In Huracán Sterrato, design and technique come together to provide the ultimate driving experience.

Lamborghini experts performed an analysis to introduce protective elements to reduce powder accumulation without compromising on aerodynamics.

Among the most important innovations, the exterior side air intakes are closed to prevent dust from entering the engine filters, while a new air snorkel has been opened on the roof to ensure that the engine gets clean air at all times, especially on sandy or dusty terrains. The front splitter is integrated into the bumper to manage the incoming flow to the car's underbody, resulting in an increased front downforce.

The front bumper is equipped with additional front lights designed to generate low air separation and have as low an impact as possible in terms of drag.

All these aerodynamic elements work in synergy to provide maximum performance on any surface.

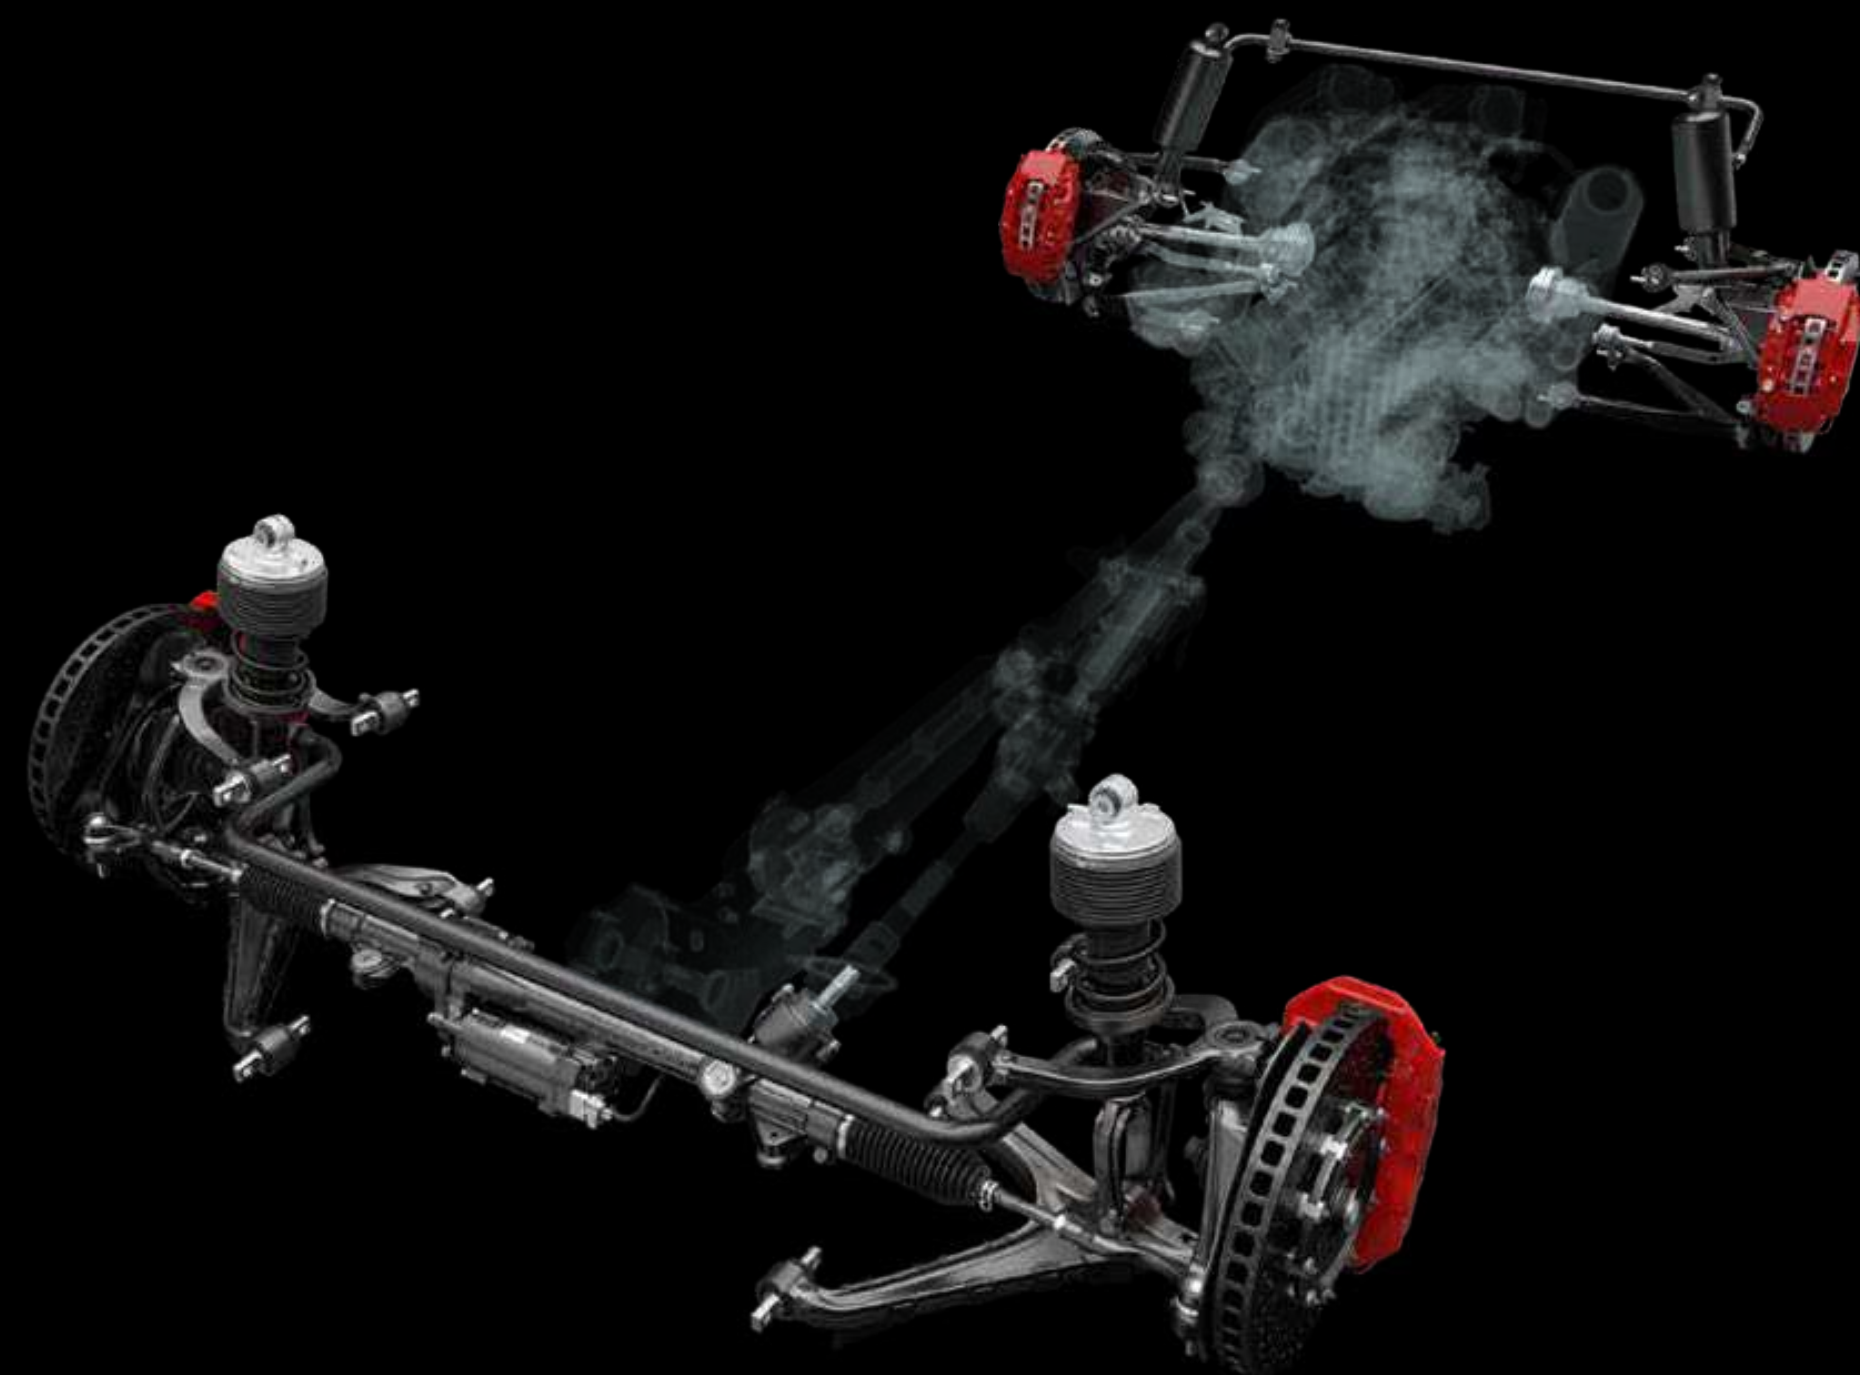

SUSPENSIONS

ADAPTIVE PERFORMANCE.

The innovation represented by Huracán Sterrato includes improved suspensions, which feature magneto-rheological dampers that provide a swift response that fully adapts to the road conditions and the driving dynamic program selected.

The redesigned advanced suspension system allows the Sterrato to deliver the ultimate comfort and maximum control for a fully personalized driving experience according to the driver's needs and terrain.

Continuously striving to provide the ultimate Fun-to-Drive experience, Huracán Sterrato can also boast a higher ground clearance compared to Huracán EVO 4WD (+44 mm) and a significant wheel travel increase (+25% in the front axle and +35% in the rear axle).

03

DRIVING EXPERIENCE

DRIVING MODES

STRADA
SPORT
RALLY

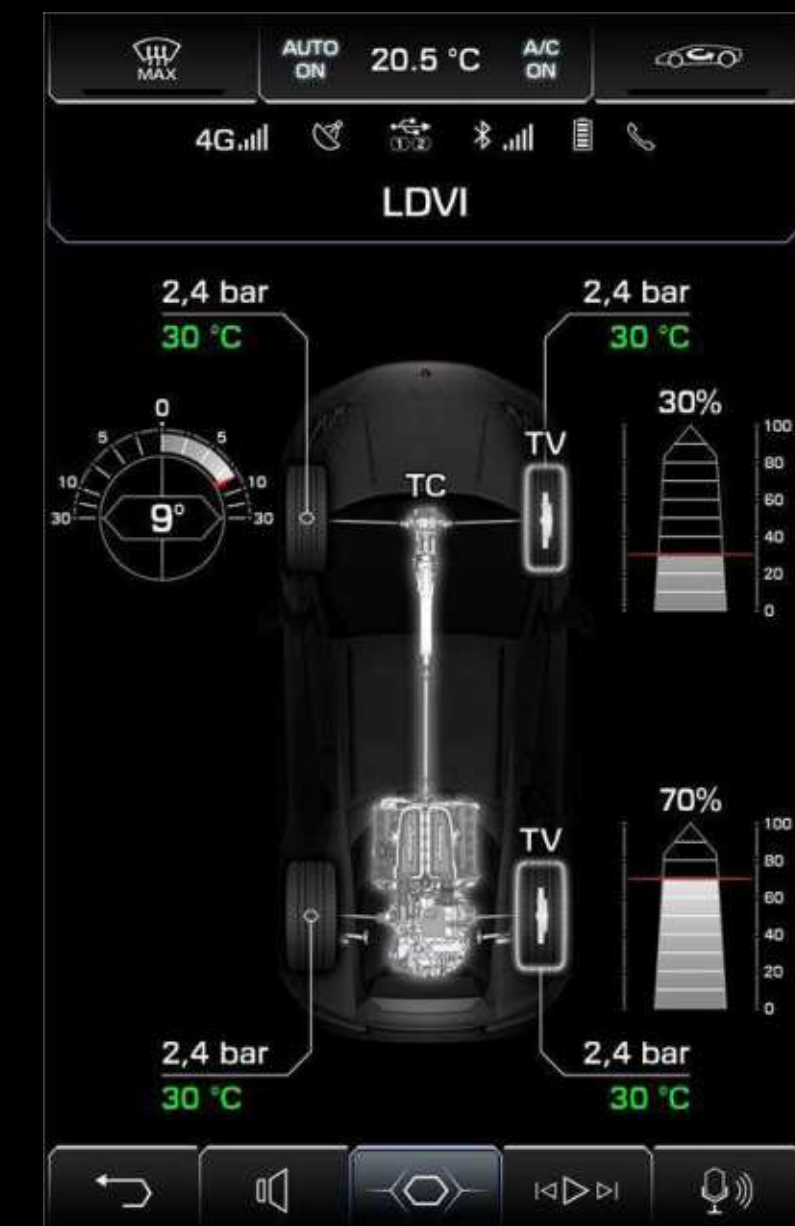

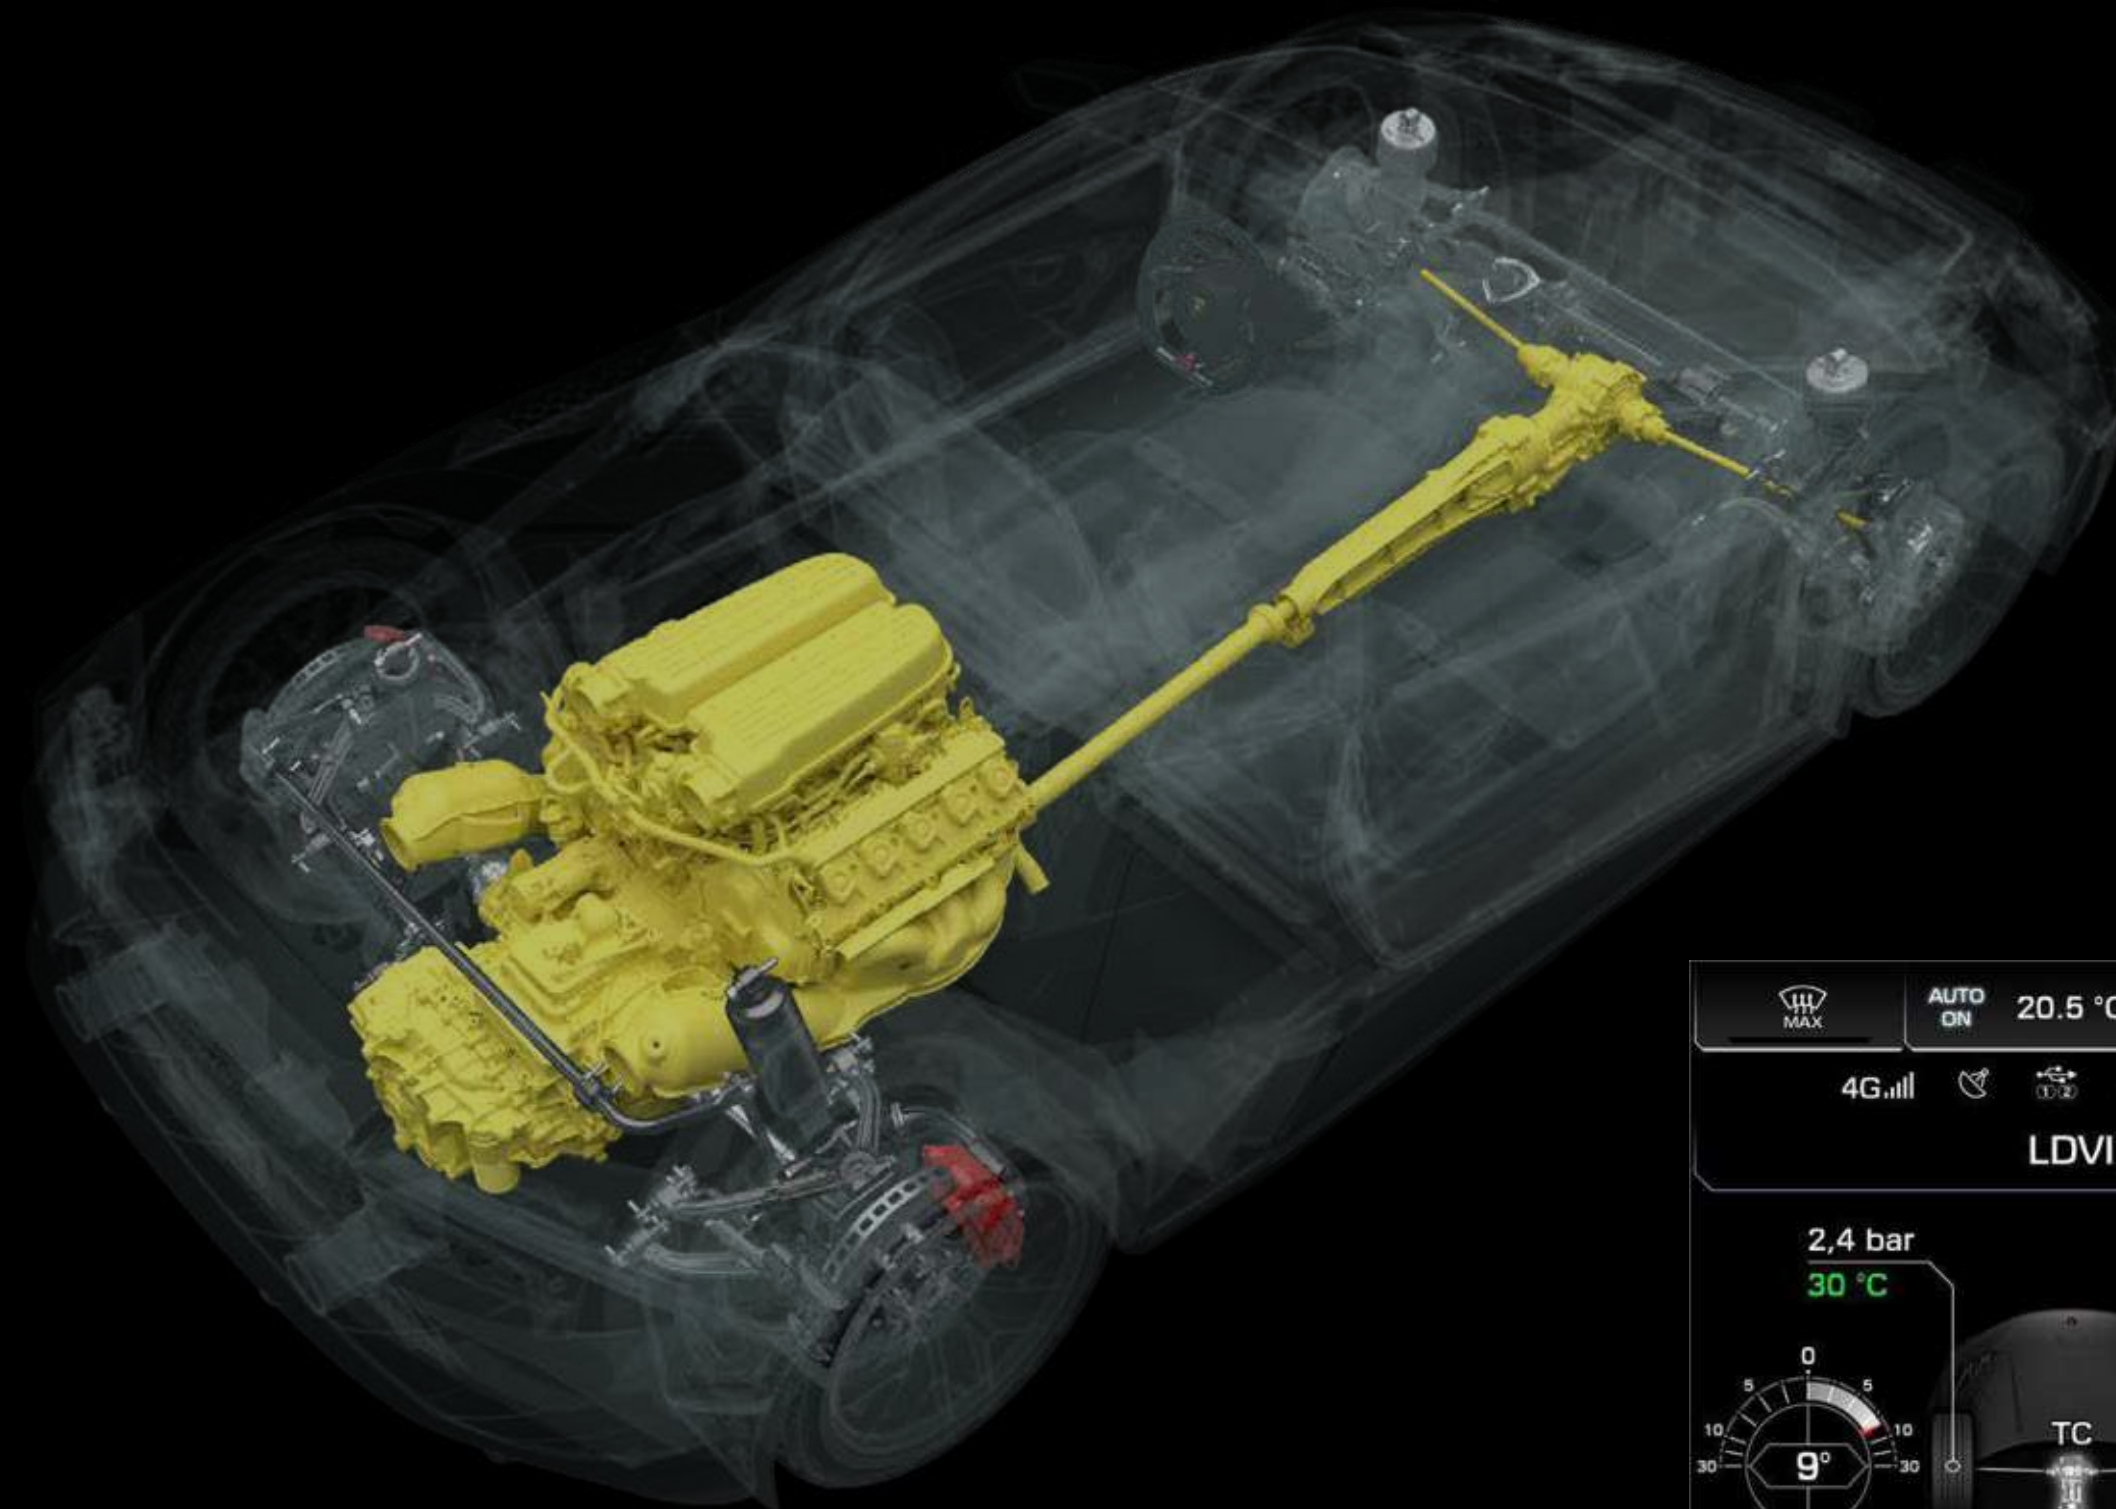

A UNIQUE DRIVING EXPERIENCE.

Lamborghini's ANIMA driving-mode selector goes even further in Huracán Sterrato, introducing specially designed modes such as Strada for road versatility, Sport for a Fun-to-Drive experience on dirt and gravel, and the brand-new Rally mode for low-grip surfaces. These optimized vehicle dynamics offer flawless driving control on all terrains for never-ending adventures.

LDVI

A POWERFUL COORDINATOR.

Everything about Huracán Sterrato is geared toward adaptability. The Lamborghini Integrated Vehicle Dynamics (LDVI) system acts as a coordinator of driving dynamics management systems according to factors such as the driver's input, external environment, and the selected driving mode. The result is a super sports car finely tuned for optimal performance on any type of terrain.

BRIDGESTONE DUELER TIRES

SPECIFICALLY DESIGNED TIRES.

The partnership between Lamborghini and Bridgestone continues with Huracán Sterrato, which features custom-engineered Dueler AT002 Tires that provide maximum versatility and adaptability on any terrain and road condition. These specifically designed tires perfectly match the Sterrato's adventurous spirit, featuring an innovative pattern and a cutting-edge compound that provides perfect grip while maintaining high-speed performance. In addition, the tires incorporate a convenient run-flat technology that allows to keep driving for up to 80 km even in case of puncture.

04

TECHNOLOGY

HMI DESIGN

HUMAN-MACHINE INTERFACE.

Huracán Sterrato's HMI (Human-Machine Interface) also expresses the car's daring nature with special driving features unique to this model, such as a digital inclinometer with pitch and roll indicator, a compass, a geographic coordinates indicator, and a steering angle inclinometer.

CONNECTED SERVICES

CONNECTED TECHNOLOGY.

Lamborghini Connect is an exclusive technology suite designed to bring customer experience to a whole new level. (*)

CONNECTED SERVICES

The Connected Services available for Huracán Sterrato are:

CONNECTED NAVIGATION SERVICES

Precise real-time travel, route, and destination updates.

- Real-Time Traffic Information
- What3words
- First/Last Mile Navigation

PEACE OF MIND

The maximum convenience in managing the status and condition of your car.
Your Huracán right at your fingertips whenever and wherever you need it.

- Car Finder
- Vehicle Status Report
- Over-the-Air Software Updates
- Amazon Alexa Integration

SAFETY AND SECURITY

Advanced assistance services for monitoring the car and ensuring the safety of the people onboard.

- Geofencing Alert
- Speed Alert
- Curfew Alert
- Valet Alert

ENTERTAINMENT

Cutting-edge features that make the travel experience even more enjoyable and engaging.

- Web Radio
- Apple CarPlay
- Android Auto

FUN TO DRIVE

Innovative services aimed at improving driving pleasure and your skills as a driver.

- Lamborghini Connected Telemetry
- Board Diaries
- Drive Recorder

(*) Please note that availability of Lamborghini Connected Services varies according to model and country. The information on this page is intended to provide a general overview. For service availability in your country, please contact your Lamborghini Dealer.
